NO BLACKLEG AMONG HEIFERS

Several of the heifers which had been furnished the members of the First-Standard Bank's Heifer Club and which had died were examined by Dr. Boone Phillips yesterday. After a thorough examination he stated that the animals had died of pneumonia and not of blackleg, which was first thought. About five of the heifers have died and several others are ill. It is thought that the heifers contracted cold on their way here from Chicago, and that this later developed into pneumonia.

America Needs Your Help

TO THE MEN AND WOMEN OF MASON COUNTY:

Your country is at war—not a sideshow war or a little Indian campaign, but the greatest war of all times. The fate of the entire human race hangs in the balance. Millions of young men and women of America are joining in devoting their entire service to their country, making huge personal sacrifices for their country's welfare, in many cases risking their lives, and often giving them up, so that the world may be made safe for democracy.

You who stay at home must do your part by lending the Government of the United States a portion of your savings to meet the expenses of the war. This does not involve any risk or loss on your part. You receive for your loan the best security in the world today, United States Government bonds paying yearly interest at 4 per cent. If these bonds are not good nothing in this wide world is good, and you may as well close up shop and quit right now.

This is not a favor we are asking of you, but a duty, and a duty of the most sacred character. If you do not buy liberty bonds now you may be forced to buy German indemnity bonds later on. The choice is obvious to any thinking man or woman. The banks of Mason County desire to arouse the men of our community from their lethargy. The war must be prosecuted to a successful close, and adequate funds must be raised to meet the war expenses of the Government. You, and this means every man or woman with a dollar to spare, should come forward at once without solicitation and lend your extra dollars to the Government.

You are taking no risk, you are granting no favor by so doing, but you are performing a duty that rests on every individual with character enough to warrant the respect of his or her fellow citizens. It is a patriotic duty which every man and woman owes to America, the champion of Liberty against Autocracy. Act today. Buy Liberty Bonds to the extent of your means. Any of the following banks will serve you free of charge.

BULLETS CRASH THROUGH WINDOW

Of C. & O. Train No. 3 Thursday When Bandits Fire on Train in Covington, and Narrowly Miss Woman and Babe.

Covington, Ky., October 13—Bandits last night fired several shots at Passenger Train No. 3 on the Chesapeake and Ohio Railway when at Fifteenth street crossing in this city. The engineer says he believes the men were bandits because of their appearance.

One bullet crashed through a coach window and created excitement among passengers. Before the engineer could stop the train the bandits had fled. They fired at the train when standing in a vacant lot adjoining the track at Fifteenth street. The bullet which entered the coach narrowly missed a woman who held a baby in her arms.

The train was due in Cincinnati from Washington, D. C., at 5:15 p. m., but was an hour late.

Covington police searched in the neighborhood for bandits but without results.

Police are unable to find a motive for the shooting because there were no troops on the train.

Mr. John T. Scott of Georgetown, Ohio, has been appointed County Chairman of Brown county, to have charge of the campaign for pledges to the National Food Administration at Washington.

PRINCELY ARSON

The world is familiar with the fact that Prince Eitel, the Kaiser's second son, pillaged the chateau of Avricourt when the German army retreated last summer from a section of northern France. But the full story is little known. Dr. Newell Dwight Hillis, famous Brooklyn preacher, after two months spent in personally investigating the devastation wrought by the modern Huns, has revealed some additional details of that shameful episode. They throw a vivid light on the character of the Hohenzollern family.

It appears that this noble castle, rich with historical associations and filled with priceless relics, was one of the buildings specifically covered by a clause in an international agreement signed by all the powers, including Germany, intended to guarantee the safety of historic edifices in war time. It was occupied for many months by Prince Eitel, as his military headquarters. This is what happened when the retreat occurred, as attested by aged servants and little children, whose affidavits were taken immediately afterward, and of whose testimony Dr. Hillis has photographic copies:

The servants heard German officers telling Prince Eitel that he "would disgrace the German name if he destroyed a building that had no relation to war and could be of no practical aid or comfort to the French army, and he would make his own name of shame and contempt." But the prince was unmoved. He brought in big wagons and hauled away every object of any possible value in the chateau.

Then, says Dr. Hillis, summarizing the sworn testimony, "having promised to leave the building uninjured, he stopped his car at the entrance and exit gates of the ground, ran back to the historic building with a can of oil that he had secreted, filled his torch (a stick with a ball of perforated iron at the end, filled with asbestos), ran through the halls and waited until the flames were well in progress, and then ordered his men to light the fuse of a dynamite bomb." Dr. Hillis has the firebrand that Eitel used.

Thus another of France's oldest and finest monuments was laid low by the scion of a royal family that boasts itself the greatest on earth—a prince turned burglar and incendiary. Royal arson was added to the purposeless devastation of a fertile land and murder and outrage of its innocent inhabitants. And there are still people who want civilized governments to make peace with the Hohenzollerns!

BILL THOMPSON'S INSPIRATION

Why should anybody wonder that Mayor Thompson of Chicago, hopeless of re-election because of the resentment aroused by his alleged pro-German sentiments and activities, should seek "vindication" by running for the United States Senate?

He has La Follette for an inspiring example. And he has the virtual support of the rest of the United States senate as long as that gentlemanly social club tolerates the conduct of La Follette and other senatorial friends of the Kaiser.

"We greatly deplore the sufferings caused to the neutrals by our enemy's economic war," said Chancellor Michaelis in a recent speech, "and we always are prepared to assume a share in the provisioning of the neutrals."

That's the proper spirit! And maybe the chancellor will permit us to suggest that as a preliminary step in furnishing this relief, the German U-boats stop sinking the neutrals' food ships.

TIME IS THE TEST

The Testimony of Maysville People Stands the Test.

The test of time is what tells the tale. The public soon finds out when misrepresentations are made, and merit alone will stand the test of time.

Maysville people appreciate merit, and many months ago local citizens publicly endorsed Doan's Kidney Pills; they do so still. Would a citizen make the statement which follows unless convinced that the article was just as represented? Below is testimony such as the sufferer from kidney ills is looking for.

Fred Dresel, tailor and justice of the peace, 1238 E. Second St., Maysville, says: "I was troubled by inflammation of the bladder and annoyance from my kidneys. The kidney secretions burned in passage and often were retarded. I had severe pains across the small of my back which greatly interfered with my work. Doan's Kidney Pills, which I got at Wood & Son's Drug Store, gave me prompt relief."

Mr. Dresel gave the above statement on February 6, 1908, and on November 14, 1916, he added: "I have had the same faith in Doan's Kidney Pills to-day as ever, for I haven't had any trouble with my kidneys since I last recommended them."

Mr. Dresel is only one of many Maysville people who have gratefully endorsed Doan's Kidney Pills. If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy, distinctly for DOAN'S KIDNEY PILLS, the same that Mr. Dresel has twice publicly recommended—the remedy backed by home testimony. 600 all stores. CONSTIPATION

And Sour Stomach Caused This Lady Much Suffering. Black-Draught Relieved.

Meadows, Ky.—Mrs. Pearl Patrick, of this place, writes: "I was very constipated. I had sour stomach and was so uncomfortable. I went to the doctor. He gave me some pills. They weakened me and seemed to tear up my digestion. They would gripe me and afterwards it seemed I was more constipated than before.

I heard of Black-Draught and decided to try it. I found it just what I needed. It was an easy laxative, and not bad to swallow. My digestion soon improved. I got well of the sour stomach, my bowels soon seemed normal, no more griping, and I would take a dose now and then, and was in good shape.

I cannot say too much for Black-Draught for it is the finest laxative one can use."

Theodore's Black-Draught has for many years been found of great value in the treatment of stomach, liver and bowel troubles. Easy to take, gentle and reliable in its action, leaving no bad after-effects, it has won the praise of thousands of people who have used it.

Prussianism and Germany

Overmuch stress has been laid upon Germany and the Germans in all this discussion of the world war. Too little emphasis has been given to Prussian militarism, which, after all is said and done, is responsible alone for the battle flames which are consuming half of Europe and claiming thousands of lives along the Flanders trench lines. For the two are by no means synonymous.

Prussianism, in the essence, means that autocratic element which dominates the destinies of the German empire and insidiously feeds the ambitions of the Kaiser for world dominion. It is the influence which has inspired the warlord to cause his munition plants, his navy yards, his training camps, to put in extra time for the last three or four decades in building up a war machine with which ultimately he hoped to crush Europe and extend his sphere of influence to the western continent.

It is the master mind which dominates the Wilhelmstrasse headquarters of the secret service which has so efficiently kept tab in recent years upon the doings throughout half a dozen European empires. Which has directed the work of the German diplomat in all its devious and crooked ways both in Europe and America. Which has set up its spy system and maintained its slush funds both in Europe and America. Which is accountable for all of the duplicity and deviltry that finally terminated in the present configuration in Europe.

The Germans, as a people, knew nothing of all this; know little of it, in fact, today. The German public, the rank and file of German citizenry, have not the advantages of the free press that America enjoys. When ever a newspaper becomes too frank in its discussion of the things that most intimately concern the public, Prussianism finds a way to have it suppressed. The mission of the German press is to inspire its readers with greater loyalty to the Kaiser. And it has done its work.

Prussianism has been as treacherous with the German public as it has been with France, with England, with Russia, or with America. It has deceived and misled it. It has hoodwinked and betrayed it. It has made it a cat-saw and in the end it will seek to make it the goat.

But Prussianism will only succeed in destroying itself.

There are no greater lovers of liberty than the Germans as we know them in America. When the smoke of battle clears away and peace once more comes in Europe, Democracy will find an enthusiastic and lasting welcome across the Rhine. The meager advices that trickle through the Prussian censorship all indicate this.

Left to itself, the German public would vote for peace tomorrow. In the end, it will wipe out Prussianism.

AERIAL RAID

On Hundreds of Cities To Be Made By Army Flyers on October 20 To Distribute Liberty Loan Literature.

Washington, October 13—A coast to coast aerial raid on hundreds of cities will be made by army flyers in aeroplane and balloons on October 20, in behalf of the Second Liberty Loan. Details were completed today by the War Department. At an appointed hour forty-five aviators and eight balloons armed with paper bombs will ascend for flights ranging from fifteen to 146 miles between camps where "the eyes of the army" are in training and surrounding cities.

As cities, villages and towns are passed over hundreds of red and blue paper bombs containing liberty loan literature will be dropped. On each municipality also will be dropped one large red bomb to which will be attached a long ribbon containing a special message for the Mayor. This bomb, by special arrangement, now being made by the Treasury and War Departments, may be handed to Mayors direct by the finder or given to any policeman who will deliver it to the Mayor's office.

The aeroplanes will carry from 150 to 175 pounds of bombs apiece. The balloons will carry as high as 400 pounds of bombs. The most scientific and daring aviators and balloonists from the different camps will be selected for the flights. Applicants for the honor of flying in behalf of the loan already are coming into the War Department. Besides dropping the bombs the flyers doubtless will give brief exhibitions above every city over which they pass. All of the flights probably will start at the same hour. If a starting time is fixed it will be announced later.

The Chairman of the Mason County Food Conservation Committee Thursday received the following letter from State Headquarters at Louisville. In anticipation of state instructions, the local committee has already arranged a mass meeting at the Washington Opera House for Sunday, October 14, 2 p.m. The letter follows:

Louisville, Ky., October 10, 1917.
Miss Alice Lloyd, Chairman,
Mason County Food Conservation Committee, Maysville, Ky.

My dear Miss Lloyd:

Nearly one hundred counties in Kentucky have been organized for the Food Pledge Card Campaign during the week of October 21-28.

The Chairman in practically every county has secured a splendid array of workers, which is the aggregate.

It will constitute an army that will make this one of the most successful campaigns ever conducted in this country. Every County Chairman seems to realize that she is a part of the war working force of the United States, and there is little or no disposition to avoid the issue. It is this spirit that must pervade the entire campaign.

There is no medium better calculated to bring about this result than the massing of forces with the resultant inspiration that comes from co-workers being in touch with each other.

It is with this idea that we venture

the suggestion that before October 21 you have general meeting of all of the members of the various committees in your county for final instructions, at which time the opportunity might be taken advantage of to have them addressed by some particularly forceful speaker. Such a meeting would give a zest to the campaign in general that would mean a bigger degree of success than might otherwise be obtained.

Yours very truly,

W. E. MORROW,
Food Campaign Director, Kentucky.

These mass meetings have been held in many counties. The Frankfort and Lexington papers give glowing accounts of the enthusiasm and success of the meetings in Franklin and Fayette, but her citizens have proven that she is not less patriotic.

She will line up at the word of command from those in charge of the des-

tinies of this year.
